## The Top 10 Best Beauty Products

By creative director Jessica Gearhart

### 1. Kirsty Mcleod Clarifying Clay Exfoliator

This exfoliator has the finest grain so it exfoliates really well without stripping the skin. It leaves skin feeling squeaky clean and it doubles as a mask and blemish treatment.

### 2. Sophyto Polyphenol and 3. Mega Serum Ampules

Skin looks better after the first use. I use them daily now and can see an immediate improvement in the texture and tone every day. Redness has subsided and it's the perfect addition to any skincare routine for prevention, anti-ageing and clearing up skin congestion. [www.sophytoorganics.com](http://www.sophytoorganics.com)

### About Lifestyle Boutique

**Lifestyle Boutique UK** (LB UK) is the newest outlet of an internationally successful **concierge** service only available to ultra-high-net-worth individuals.

Lifestyle Boutique has been in operation globally for many years with a **unique member-to-Luxury Expert ratio of 2:1**. This **exclusive** relationship ensures excellent results and is the only truly bespoke service available.

Until now, Lifestyle Boutique has been working at full membership capacity but with the launch of the London office, **new memberships are available for the first time in twelve years.**

LB UK exists as a stand-alone service or as an accompaniment to pre-paid, debit and charge cards through American Express, MBNA, Visa and MasterCard. Statements are sent every quarter with no pre-set limit on spending, making it without doubt the most exclusive charge card in the world.

In the last three months, 30 members have spent £267,709 at Chanel, £464,620 at Louis Vuitton and £582,080 at Hermes on their Lifestyle Boutique charge cards. **The spending power of LB members is extraordinary.**

Lifestyle Boutique is opening offices in the Middle East (Dubai) 2nd quarter 09, India (Mumbai) 3rd quarter 09 and Brazil (Rio) 1st quarter 2010.

#### **4. Invisible Zinc Tinted Moisturizer**

I have literally used this every day this summer. It is made with natural sunscreens and is tinted so that you don't need any other concealer or foundation. It makes your skin look dewy and even comes in a handy brush-on formula if you want to carry it in your purse. The best tinted moisturizer I've found yet.

#### **5. Ormonde Jayne perfume in Frangipani or Ormonde Woman**

I love them. They both smell fresh, especially the Frangipani, and classic at the same time. The Ormonde woman has notes of Black Hemlock, making it super exotic and really unique.

#### **6. A homemade mixture of olive oil and fine caster sugar**

Use 2 parts oil to 1 part sugar and use as a body exfoliator on dry skin before you shower. It leaves your skin glowing. Don't wash with soap, just rinse and pat dry (and be sure to wash out the bottom of the tub so that the next person to bathe doesn't break their neck). Your skin will be so soft, smooth and moisturized for the entire day.

#### **7. Daniel Galvin Junior King of Colour Shampoo**

I use the red one and my hair was shinier, bouncier and softer than it had ever been before. Natural with an aloe-base and no sodium laurel sulphate.

### **8. Mac lipstick in ruby Woo**

This is the original matte red lipstick with which I fell in love. You can wear it with nothing but a touch of blusher, or a wing of liquid liner. It always looks good and makes you feel dangerously glamorous. You can even dab a teeny bit on the apples of your cheeks for blush too.

### **9. Old-fashioned hair combs Butter and Wilson**

When I want to look put together, I sweep up the sides of my hair with hair combs, it instantly lifts my face and makes me look like I've spent a lot of time on my hair. Let your fringe curve at the front and indulge in old Hollywood style.

### **LB LIKES...**

### **10. INA Crystals White Gold Detoxifying Crystal Salts**

These miracle crystals are the equivalent of a 3-day detox! Simply add to a hot bath and relax while the salts work their magic. It also adds a lovely luminosity to the skin.
